Full-stack Software Engineer

|--|

## **PROFILE**

I am an energetic software engineer with experience developing robust code. Exceptional team player with a can-do attitude, phenomenal time management skills, and a strong user focus, who combines unmatched organizational skills with a priority on strong communication skills and active listening. Excellent analysis and evaluation abilities as well as critical thinking to predict and prevent issues before they arise.

September 2019 - Present Full-stack Ruby on Rails Developer.

#### **French Maiden Limited**

**February 2018 – August 2019** Full-stack Laravel & Mobile App Developer.

### **PROJECTS**

#### Maid Android app

The application matches nannies to potential employers. It is built using Laravel and Android. Integrated to Firebase for analytics and message marketing.

#### **Contraceptive Expert System Desktop app**

The application provides recommendation on contraceptive use. It is a desktop application built using python for the user interface and clips for the knowledge base(expert system).
